Dr. Thomas Steckenreiter Appointed to SAMSON Executive Board

The Supervisory Board of SAMSON AKTIENGESELLSCHAFT appointed Dr. Thomas Steckenreiter to the Executive Board as of 1 June 2017. He will be responsible for research and development.

Dr. Steckenreiter holds a doctoral degree in chemistry. From 2006 to 2013, he served as marketing director at Endress+Hauser Conducta. In July 2013, he joined Bayer Technology Services (BTS) where he served as a member of the BTS Management Committee and was head of the international Operation Support and Safety division. At the same time, he was appointed to the board of management of NAMUR, the international user association of automation technology in process industries.

Dr. Steckenreiter will employ his experience and expertise in automation in the process industry to the benefit of SAMSON and focus his work on technological innovation. Through his many years' experience and together with the proficient R&D team at SAMSON, he will implement the technological change driven by digital transformation in our products, services, and future business models for the process industry to set the course for further sustainable, profitable growth at SAMSON.
