

DATA SHEET

T 5870 EN

Series 240

Type 3241/3374 Electric Control Valve; Type 3241 Globe Valve

Type 3244/3374 Electric Control Valve; Type 3244 Three-way Valve

Application

Versatile control valves for industrial applications as well as for heating, ventilation and air-conditioning systems
DN 15 to 150 · PN 16 to 40 · Temperatures from -196 to +450 °C

Special features

Type 3244 Three-way Valve or Type 3241 Globe Valve with Type 3374 Electric Actuator

- Type 3241 Globe Valve
- Type 3244 Three-way Valve

Versions

The Type 3374 Electric Actuator is available in various versions (for details, refer to associated data sheet):

- With additional electrical equipment (limit contacts, resistance transmitter, positioner)

Options

- Electric control valves with other electric actuators, see associated data sheets
- Valves with pneumatic actuators
- Version tested according to DIN EN 14597 available

Conformity

Installation

The control valves can be installed in any desired position except with the actuator suspended downwards. The actuator is attached to the yoke with a fastening nut.
