

# Inspection Certificate

Certificate No **968/INS 936.00/25**

Client / Certificate Owner  
SAMSON AG  
Weismüllerstr. 3  
60314 Frankfurt am Main  
Germany

Product  
Refurbishment of certified TA Luft fittings according to manufacturer specifications with original parts

Type designation  
Maintenance, service, cleaning, servicing, refurbishment, retrofitting, repairs  
of Samson control valves (types 250, 3241, 3244, listed variants 240) with certified low-emission packings (type LoE) of our own manufacture.

Standards applied for inspection  
TA Luft:2021  
DIN EN ISO 15848-2:2015-11

Inspection Results  
SAMSON AG, Frankfurt am Main, is hereby certified that the TA Luft-compliant switching spindle bushings of certified TA Luft valves refurbished with original parts in accordance with the repair concepts based on the manufacturer's specifications are to be assessed as high-quality seals within the meaning of TA Luft with regard to the sealing effect. The company has qualified personnel on site and in the field, facilities for the proper assembly and testing of products, a comprehensive QM system and many years of experience in the refurbishment of certified TA Luft-compliant valves.

The information on the seals in the associated installation and operating instructions and the relevant requirements of the valve and seal manufacturers must be observed. Sealing-relevant screw connections on the valves must be checked regularly and retightened if necessary.

Inspection Period  
2025-04-03 - 2025-04-03

Validity  
The issue of this inspection certificate is based on an inspection, the results of which are documented in report no. 968/INS 936.00/25 dated 2025/05/09.
