- 8.4. The Supplier shall only have a right of set-off or retention if the counterclaims have been declared final and absolute by a court decision or if they are undisputed.
- 9. Transfer of Title**
- 9.1. Any processing, mixing or combining (hereinafter referred to as "Subsequent Processing") of items provided by us to the Supplier shall be carried out on our behalf. The same applies to Subsequent Processing of the delivered Products by us, so that we are deemed to be the manufacturer and acquire title to the product in accordance with the statutory provisions at the latest upon Subsequent Processing.

Acceptance of delivery is subject to the reservation of an examination for faultlessness, in particular also including accuracy and completeness, insofar and as soon as this is pertinent in the ordinary course of business. We will provide notice of any defects found after their discovery as per our ordinary course of business. To this extent the Supplier waives the objection to delayed notification of defects.
- 11.3. In principle we have the right to select the type of supplementary performance. The Supplier may refuse the type of supplementary performance elected by us if such performance will cause disproportionate costs.
- 11.4. In the event that the Supplier does not commence rectifying the defect immediately after our remedial request, in urgent cases, especially to ward off acute danger or to prevent increase of damage, we are entitled to undertake such remedial by ourselves or to have it undertaken by a third party at the expense of the Supplier.

The Supplier expressly waives any defence or claim against us that any such alleged infringement arose out of compliance with our specifications. The Supplier will, when requested by us, defend any action or claim of such infringement at its own expense.
- 11.7. The limitation period for claims based on defects is 3 years – except in cases of fraudulent misrepresentation or a guaranteed characteristic – unless the Products are designated for use in a building construction in accordance with their customary purpose and caused the defectiveness thereof.
